The Old Course Hotel

PMP Surfacing was commissioned to install a brand-new resin-bound surface outside the famous Old Course Hotel at St Andrews.

The Old Course Hotel is recognised as one of Europe's leading luxury resorts, with the course itself considered one of the most prestigious in the world. Known as the "Grand Old Lady", the Old Course is also regarded as the oldest golf course in the world.

Iconic 17th Hole (Road Hole) at St Andrews

For this prestigious project, we partnered with our Scottish strategic partner, GMC Resin to deliver a finish that perfectly complements the iconic surroundings of the Old Course Hotel, situated beside the 17th hole of the famous course.

The Resin Bound installation is located near the renowned St Andrews pub, The Jigger Inn. The choice of Aspen Blend integrates seamlessly with the pub's traditional colour scheme, enhancing the area's historic charm, while adding a touch of elegance.

PMP Resin Bound Surfacing: Golf's Gold Standard

PMP Surfacing is a leading supplier and installer of resin-bound surfacing, renowned for delivering high-quality, visually striking surfaces across a range of commercial and recreational settings.

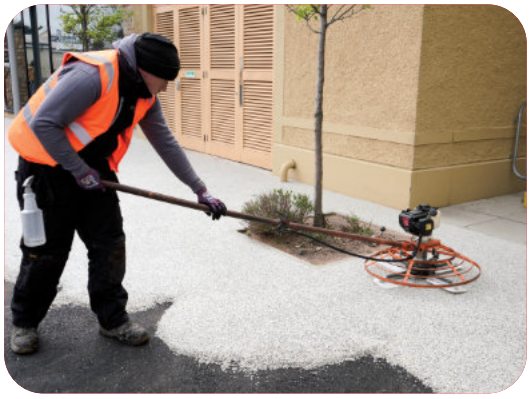

PMP Resin Bound Surfacing combines aesthetic appeal with long-lasting durability, providing a finish that not only enhances the look of any space but also withstands to heavy use and varying weather conditions.

We specialise in premium commercial surfacing solutions and have developed strong, lasting relationships with golf clubs and other organisations throughout the UK.

Benefits of PMP Resin Bound Surfacing

- Highly Decorative
- Range of Colours Available
- Easy To Clean and Maintain
- Fully Permeable
- Fully SuDS Compliant

Specifications

A total of 390m² of PMP Resin Bound Surfacing was expertly installed in an Aspen Blend, creating a visually striking, seamless finish that enhances the overall aesthetic while providing long-lasting durability.
