# ALL SAINTS CHURCH, SHIPTONTHORPE

PMP Surfacing installed Flexipave into All Saints, Shiptonthorpe Church in York, making the church more accessible and safer to the general public.

Our sustainable Flexipave paths were unveiled to the public on the 9th July, providing more wheelchair access and an ecofriendly surface that runs throughout the churchyard.

**The surfaces in the churchyard were not accessible leaving the church with severe accessibility problems. PMP Surfacing decided that Flexipave was the perfect surface to solve safety issues and amend the previous pathway.**

**SPECIFICATION:  
100m2 of KBI Flexipave  
HD1500 at 35mm in Coral  
Pink finish.**

**“Things were getting desperate, our church ‘path’ was dangerous and difficult. After rain it became so muddy that even the steadiest of people could slip. We have already received favourable comments from congregational members and villagers. The finished product looks good and is so much easier for everyone to negotiate. We can now access our church whatever the weather.”**

**Freda Bailey, All Saints Church Shiptonthorpe**

The Flexipave used in this project utilised 267 recycled vehicle tyres. These tyres would have released 5,874kg of CO2 had they been burned.

- **Highly Porous**
- **Fully SUDS compliant**
- **Maintenance Free**
- **Available in multiple colours.**
