PMP Surfacing Solutions

PMP Surfacing is a leading UK provider of commercial resin-bound surfacing, serving architects, leisure venues, housing developers and local authorities nationwide. In partnership with KBI UK Ltd, we install Flexipave and Resin Bound systems, delivering expert guidance on porous, free-draining surfaces.

Our Portfolio Includes:
Chessington World of Adventures Resort, LEGOLAND Windsor Resort, and CBeebies Land at Alton Towers Resort.

PMP Resin Bound Surfacing: Domestic & Commercial

A unique surfacing material crafted from high-quality dried aggregate, meticulously prepared to our exacting specifications. We blend this aggregate on-site with our proprietary polyurethane binding agent, resulting in a versatile material that delivers outstanding performance.

Advanced Golf Pathway Surfacing

Golf Club Partnership Scheme

The PMP Surfacing Golf Club Partnership is a three-tier scheme designed to help golf clubs enhance their pathways using the unique Flexipave porous surfacing system.

Flexipave Golf Pathways

PMP Surfacing recommends Flexipave as the ideal solution, owing to its proven track record in golf clubs and high porosity, which supports effective drainage.

Golf Club Bunker Lining

Flexibunker lining provides a forgiving surface that protects users' clubs while helping sand adhere to the bunker wall, minimising related issues.

Natural Stone Carpet

Create a unique look that sets your space apart. Our Quartz and Marble collections offer a beautiful, natural finish that is fully water-sealed and ideal for indoor floors.

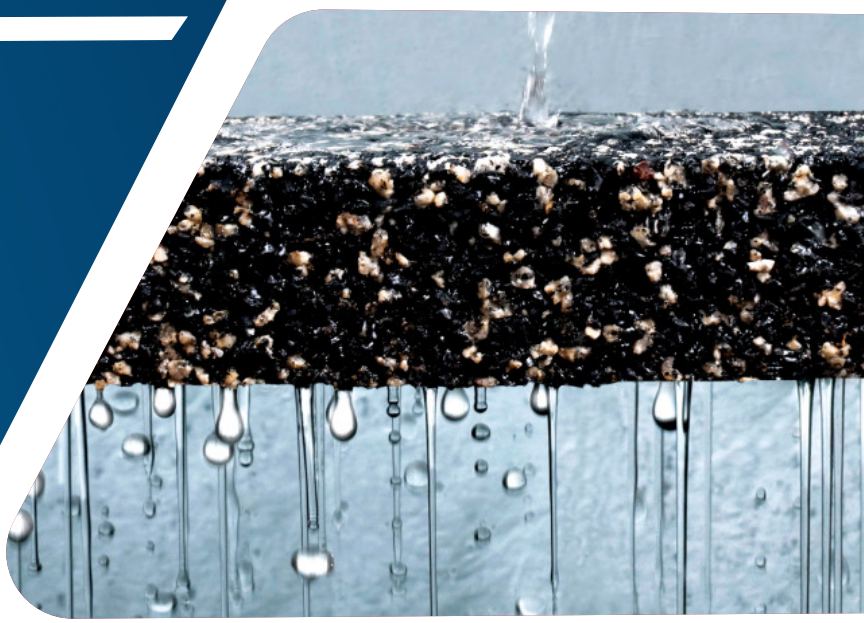

- **Style:** A durable and stylish alternative to tiles.
- **Comfort:** Compatible with underfloor heating.
- **Finish:** Offers the same heat rating as timber flooring.

FlexiPave

A surfacing solution that blends recycled tyres and aggregate in a 50/50 mix.

- **Performance:** Enhanced durability and permeability.
- **Sustainability:** Designed to reduce environmental impact and support carbon reduction targets.
- **Versatile:** Suitable for new sub-bases or as an overlay for refurbishment.

Safety First: Play & Leisure

SPRINGBACK SAFETY SURFACING by PMP SURFACING

Springback Wet Pour safety surfacing PMP Surfacing is a seamless, shock absorbent rubber surface made from recycled tyre granules and specialist resin.

Compliant with BS EN 1177 safety standards, this durable and porous system offers weather resistant playground protection.

BOUND MULCH RUBBER MULCH SURFACING by PMP SURFACING

PMP Surfacing is proud to be an official installer of Bound Mulch. Developed by the team at Star Rubber, Tiger Mulch is the UK's leading brand of rubber mulch surfacing.
