PMP Flexipave For Family Attractions

Our eco-friendly Flexipave pathway system, manufactured from recycled vehicle tyres, provides durable, porous pedestrian access that enhances visitor flow while supporting environmental sustainability. Ideal for public walkways, it combines resilience with excellent drainage, making it suitable for all-weather use. Its inherent flexibility helps prevent cracking and surface damage, supports healthy root growth around trees, and requires minimal maintenance—offering a long-lasting, safe, and attractive solution for parks, gardens and public spaces.

Attraction-Ready Surfacing

PMP Resin Bound Surfacing provides a durable, UV-stable solution ideal for children's play areas and visitor attractions. It is designed to resist cracking and fading while maintaining a safe, attractive and low-maintenance surface for years to come.

Surfacing Made For Safety

SPRING BACK
SAFETY SURFACING by pmp SURFACING

For play areas, safety is non-negotiable. Our Spring-Back safety surfacing system is engineered to absorb impact, providing a secure environment for children. Whether it's a playground or adventure zone, Spring-Back ensures peace of mind for park operators and parents alike.

BOUND MULCH
RUBBER MULCH SURFACING by pmp SURFACING

Our bound mulch solutions offer a natural-looking, low-maintenance, and durable surfacing option for pathways, landscaping or play areas. It provides a versatile, long-lasting solution that can complement various themed environments.

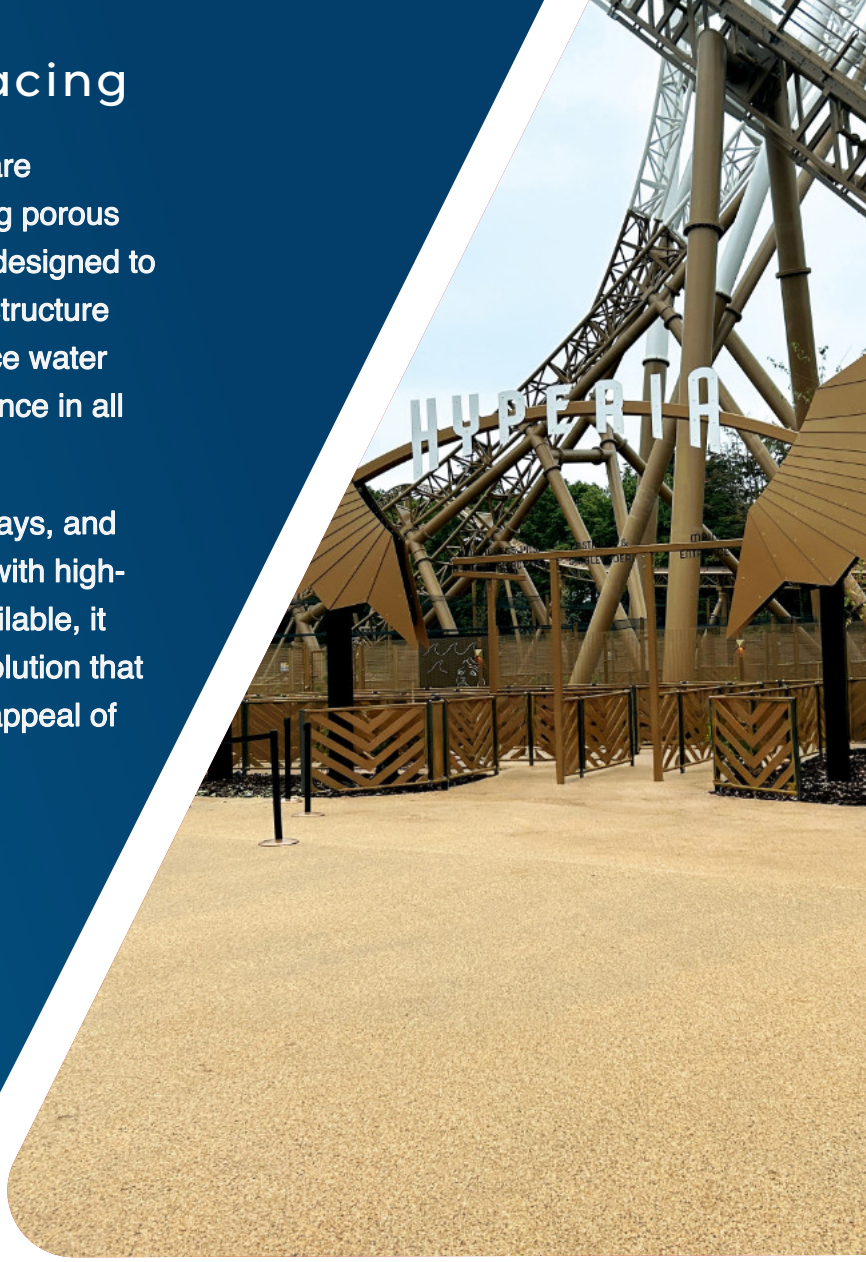

PMP Resin Bound Surfacing

For areas where footfall and visual appeal are paramount, our PMP Resin Bound Surfacing porous system delivers a seamless, durable finish designed to withstand heavy visitor use. Its permeable structure supports effective drainage, reducing surface water while maintaining a safe, attractive appearance in all conditions.

Suitable for car parks, access roads, walkways, and decorative spaces, it combines practicality with high-end style. With a wide range of finishes available, it provides a low-maintenance, long-lasting solution that enhances both the functionality and visual appeal of your visitor environment.

Benefits of PMP Resin Bound Surfacing

- **Durable and Long-Lasting** - withstands footfall and weather without cracking.
- **Porous and Permeable** - facilitates natural water drainage, reducing puddles and surface water.
- **Low Maintenance** - easy to clean, with minimal repairs required over its lifespan.
- **Smooth, Safe Surface** - minimises trip hazards and provides wheelchair and pushchair accessibility.
- **Aesthetic Versatility** - available in a range of colours, textures, and aggregate finishes.
