PMP Resin Bound Surfacing

PMP Resin Bound Surfacing is a premium solution designed to combine stunning aesthetics with exceptional performance. Ideal for commercial projects, this system offers a durable, decorative finish that elevates the character of any environment.

Hand-laid and machine-applied by our skilled team's, every surface is crafted with precision and care, delivering a seamless result that stands the test of time, even in high-traffic areas, while remaining low-maintenance and visually striking.

Long-Term Solution

PMP Resin Bound Surfacing offers a hard-wearing, UV-stable solution that will not crack or fade, ensuring your surface remains a stunning, low-maintenance asset for decades.

Built to Perform: Commercial Resin Bound Surfacing.

Visitor Attractions | Commercial Properties | Public Spaces

Stylish, Sustainable Surface Solutions

Not only does PMP Resin Bound Surfacing provide a beautiful finish, but it also manages surface water effectively.

Highly porous and SuDS-compliant, it allows rainwater to drain naturally into the ground, reducing the risk of flooding and standing water.

Available in a wide range of colours, it gives you the flexibility to create striking designs tailored to your project's requirements.

Benefits of PMP Resin Bound

Highly Decorative Finish - delivers a premium, aesthetically pleasing surface for commercial spaces.

SuDS Compliant - fully permeable system allowing natural water drainage.

Durable and Long-Lasting - engineered to withstand heavy footfall in busy public areas.

Installed with Precision - ensuring a seamless, professional finish every time.

Versatile Applications - perfect for commercial sites, visitor attractions, theme parks and public spaces.

Wide Colour Range - choose from a variety of blends to align with your project's style.

Low-Maintenance - easy to clean and maintain compared with traditional surfacing.
