All Saints Church Shiptonthorpe

PMP Surfacing installed Flexipave at All Saints Church, Shiptonthorpe in York making the church more accessible and safer for the general public. Our sustainable Flexipave paths were unveiled on the 9th of July, providing improved wheelchair access and an eco-friendly surface that runs throughout the churchyard.

The surfaces were previously inaccessible, resulting in significant accessibility issues for the church. PMP determined that Flexipave was the ideal solution to address safety concerns and upgrade the existing pathway, while also enhancing the overall aesthetic of the historic grounds. Due to the extremely porous nature of Flexipave, eliminating concerns for standing water have also been eliminated.

Testimonial

“Things were getting desperate; our church ‘path’ was dangerous and difficult. After rain, it became so muddy that even the steadiest of people could slip. We have already received favourable comments from congregation members and villagers. The finished product looks good and is so much easier for everyone to negotiate. We can now access our church whatever the weather.”

Freda Bailey, All Saints Church, Shiptonthorpe

Specifications:

- 100m² of Flexipave
- HD1500 at 35mm in Coral Pink Finish

Sustainable Porous Surfacing

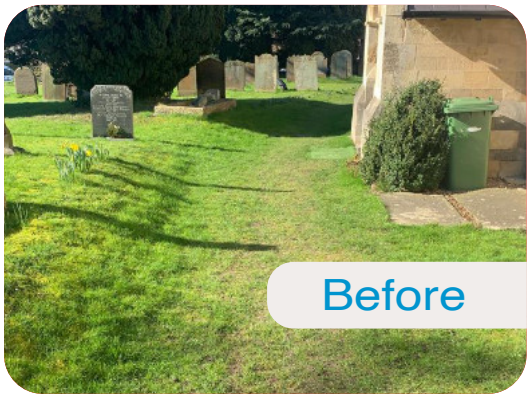

Highly Porous - allows water to drain naturally through the surface, reducing flooding and standing water.

Fully SuDS Compliant - meets Sustainable Drainage Systems requirements, supporting environmentally responsible water management.

Low-Maintenance - durable and long-lasting, requiring minimal upkeep while retaining its performance and appearance.

Multiple Colours - available in a range of finishes, to suit different design schemes and aesthetic requirements.

Eco-Friendly - the project used 267 recycled vehicle tyres, mitigating 5,874 kg of CO_2 emissions that would have been released if the tyres were burned.
